PROFESSIONAL SUMMARY

Results-driven Information Technology student specializing in Full-Stack Web Development (MERN Stack) and AI/ML. Proficient in building responsive, scalable web applications using JavaScript, Python, and SQL. Adept at both front-end and back-end architecture, combining technical expertise with strong problem-solving skills to deliver innovative, clean-coded web solutions.

TECHNICAL PROFICIENCIES

Programming Languages: JavaScript (ES6+), Python, Java, C++, C

Web Technologies: React.js, HTML5, CSS3, Node.js, Express.js, RESTful API Design

Databases & Tools: MongoDB, SQL, Figma, Adobe Illustrator, Git/GitHub, Version Control

Core Coursework: Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Engineering, Information Security, Agile Methodologies

PROFESSIONAL EXPERIENCE

[Full Stack Web Developer] | [CodeAlpha] — [Lucknow, UP /Online] **[May, 2026] – [June, 2026]**

- Architected and launched "Vibe," a dynamic social media platform leveraging the complete MERN stack (MongoDB, Express.js, React.js, Node.js), facilitating real-time user interactions and boosting platform engagement by 40%.
- Developed a responsive e-commerce website with secure user authentication and scalable product management features, resulting in a 30% reduction in page load times and an enhanced user experience.

[MERN Stack Developer Intern] | [TechnoGuide Infosoft Pvt. Ltd.] — [Anand/Offline] **[May, 2026] – [June, 2026]**

- Engineered scalable RESTful APIs using Node.js and Express.js, seamlessly integrating them with React.js frontends to improve data retrieval efficiency by 25%.

ACADEMIC PROJECTS

Job Portal Application | MERN Stack

- Built a comprehensive job board facilitating seamless job searching and secure candidate-employer interactions.

VastraWise (B2C Rental System) | MERN Stack

- Architected a scalable B2C clothing and inventory rental management platform for business operations using the complete MERN stack.

Facial Emotion Detection System | Python, Computer Vision, Deep Learning

- Developed an AI-based system capable of tracking and identifying human emotions in real-time utilizing Deep Learning techniques.

POSITIONS OF RESPONSIBILITY

- Coordinator (Training & Placement Cell & Personality Development Cell):** Acted as an industry liaison to facilitate recruitment drives and led interactive workshops focused on enhancing students' soft skills, communication, and overall professional readiness while managing end-to-end event logistics. **Anchor & Technical Team (AICTE Core Committee & EDC):** Hosted high-profile seminars, managed audience engagement, and directed technical presentations to seamlessly deliver various entrepreneurship and committee events.

EDUCATION

B.Tech in Information Technology | Madhuben and Bhanubhai Patel Institute of Technology, CVM University **2023 – 2027**

- Current CGPA: 8.36/10

Class XII (HSC) | S D Patel Fulbai Vidyamandir, Pamol **March 2023**

- Percentage: 64.76%

Class X (SSC) | S D Patel Fulbai Vidyamandir, Pamol **March 2023**

- Percentage: 84.60%

CERTIFICATIONS & ACHIEVEMENTS

- **Microsoft Certified: AI/ML:** Completed a 20-hour intensive course on Artificial Intelligence & Machine Learning (Microsoft Learn & FICE).
- **Finalist, Best Business Idea Competition (BBIC) 2025-26:** Selected for 'OrnaPrint', an AI-driven platform for custom jewelry design.
- **First Prize in Folk Orchestra:** Awarded top honors in the Folk Orchestra category at the annual university Youth Fest.
